# Quick Reference Guide for Using BD FACSVia<sup>™</sup> Clinical Software and BD FACSLink<sup>™</sup> Software LIS Interface

This guide contains instructions for sending results to a laboratory information system (LIS) using BD FACSLink<sup>®</sup> software embedded in BD FACSVia<sup>®</sup> clinical software.

# **Workflow Overview**

The following figure shows the daily flow cytometry workflow when using a BD FACSLink software LIS interface.

#### **Generating a worklist**

- 1 Create an LIS order.
- 2 Scan barcodes or manually type in the Sample Identification number (ID) and press Enter.
- 3 Continue until the worklist is complete.

File	Instru	ment	t A	dmir	n H	lelp			
<b>BD</b> FACSVia <sup>™</sup> Clinical Software									
Ac	quire	э					Review		
	A1	A2	A3	A4	A5	A6	Test* None	Ŧ	Scan or enter
	B1	82	B3	84	B5	B6	ID*		sample ID
	C1	C2	СЗ	C4	C5	C6	Name		numbers here
	D1	D2	DЗ	D4	D5	D6	Case #		
*Required Field									

#### **BD FACSLink sample messages**

• When a sample is entered into a worklist, the Test Order Status changes to "Accessioned."

Test Order Selection		×
Select from the following Test Orders for ID 32214:		
Name	Test	Test Order Status
THM	Leucocount	Accessioned

2 After a sample is acquired and results are sent to the LIS, the Test Order Status changes to "Released Results."

Test Or	rder Selection		×			
Select from the following Test Orders for ID 32214:						
Name	e	Test	Test Order Status			
THM		Leucocount	Released Results			
			Add Cancel			

### **Sending Results to LIS**

1 Once samples have been acquired, click the **Review** tab.

2 After reviewing your data, select the Reviewed By checkbox.

	Se BD	
	Print Send Results	
	CREVIEWED BY Lab Manager OCT 23, 2015 14:47:44 PDT	Enter the laboratory personnel identifier.
8	Then click Send Results .	

- After the results are sent to LIS a dialog opens indicating the results were successfully sent.
- S Click Close .

## Troubleshooting

Open BD FACSVia clinical software and log in as the administrator.

- 2 Select Admin > BD FACSLink Settings.
- 3 Enter the following information:

				BD FACSLink Settings	<b>—</b> ×	
		Select Use B	D FACSLink	Je BD FACSLink		
			1	IP Address:		
Field	Description					
IP Address	IP address to the BD FAC	CSLink server	]	Port Number: 0		
Port Number	Server port accessed by I	3D FACSVia				
	clinical software			Username:		
Username	BD FACSLink username		]			
Password	BD FACSLink password			Password:		
				Check	Connection	
				Save	Cancel	

4 Click

Check Connection

after the information is entered.

A dialog opens indicating the connection was successful.
